

## MEADOWSWEET

CLIVE & LYN STODART

Map Reference F5

Moved to the New Forest Area from Surrey, 1978 as a family of three.

At one time part of the building was owned by the shop keeper, next door - later sold and became the Post Office after being extended.

There exists a "flying freehold" between "Meadowsweet" and "Parkfield". Previous occupants were Mr. and Mrs. E. Williams and Family, who moved to Fordingbridge.

## PARKFIELD

NIGEL & PENNY MAY

Map Reference F5

Two Adults: moved to village early 1986.  
2 "Children", aged 21 and 16 in 1999.

Both attended Western Downland School and then the Burgate School in Fordingbridge. Both adults self-employed are working from home. Son works in Ringwood, currently travelling overland to Australia. Daughter, Salisbury College from September 1999.

3 cats.

Originally the village Bakery. Bread oven still in existence. Extended over the centuries, now 4 bed, 2 bath, etc. Village shop (more or less continuously) until 1992. Many renovations and alterations made in last 10 years.

A traditional village with a good mix of people. Good local school, new village hall. A lovely place to live and for children to grow up in. However, very little work locally, very few youth facilities and almost no public transport.

## WATH COTTAGE

EILEEN & GERALD CARPENTER

Map Reference D6

Until recently our lives seemed centred around Fordingbridge, where we both worked six days a week. We have taken to retirement with relish and know Damerham is a wonderful place to retire to.

Gerald and Eileen Carpenter. Retired and in their early sixties. Have three daughters, one living in London, one in Oregon and the youngest, married and living in Melbourne.

We moved into Wath (formerly Domer) in 1981, a lovely old house, with interesting past owners one of whom, Mrs Stamper, being related to William Gladstone, we are told.
