

Damerham Community Meadow 2019

What's going on at the Meadow!

Damerham's West Park Community Meadow is a serene, green space, running along the bank of the Allen River – offering peace for those who want to walk, relax, listen to the wildlife, bring a picnic, or for children and families, as there is plenty of space (and equipment) for play for all ages, and a community orchard, where you can pick and take home fruit as well!! We would like to encourage more people to visit, and to run some events to complement this beautiful space.

Spring Early Nature Watch 18 May at 7.30am at the Meadow (weather permitting!)

Come along and see what is going on in the stream, on the meadow as it wakes up for the summer. Knowledgeable local folk on hand to show you what you might not otherwise see! Just turn up – all ages welcome.
