

A TREE OF HOPE

This year we cannot come together in the Village Hall for our jolly seasonal festivities or attend the much-loved Christmas services in St George's Church.

We must be patient and hope that with the Spring comes victory over the Virus so we can resume our community life.

In this spirit Damerham is joining with many other villages in creating a 'Tree of Hope'.

Our Tree will be the beautifully shaped and delicate Alder Golden Aurea which grows outside the Village Hall adjacent to the car park.

From **December 14th – January 6th** we can come together by making its branches bloom with tributes to all who have worked so hard to overcome Covid-19 and with our hopes for the year to come.

What would you like to hang on this tree? A decoration, a ribbon, a message? Let's make it bloom together.

THIS IS ALDER GOLDEN AUREA

As well as your ideas, there are some little stars or white wooden doves which could carry your message.... If you would like to reserve one, please contact Midge Connell:- (meconnell53@gmail.com 01725 518161 or text 007946517588). Remember the Alder's branches are not strong so keep your decorations and messages light, weatherproof and tied on securely!
